

10 Year Product Warranty dBlue

Terms of warranty

Aliaxis Poland guarantees her dBlue products for a period of 10 years as of delivery date against faulty products.

The liability is explicitly restricted to free of charge replacement of faulty products. The customer must inform Aliaxis Poland immediately in writing in case a defect occurs.

The above mentioned guarantee is bound to the following conditions:

1. The dBlue products must be installed according to the latest specification manual to be found at www.alixis.pl.
2. The storage, handling and maintenance of the products must be done according to dBlue guidelines.
3. The integrity of a system consisting of dBlue products may be compromised if materials from uncertified manufacturers are installed as one system. The system shall therefore consist only of dBlue products to ensure that a uniform continuity of quality, jointing and resistance is maintained throughout.

Excluded from the above mentioned guarantee are all occasional damages and consequential losses that directly or indirectly result from sales, transport, handling, installation or application of the supplied products.

Installation costs for replacement or repair as a result of faulty products are excluded from above mentioned guarantee.
